

ASSEMBLY INSTRUCTION

Item No.: JL10776

Tools required: cross-headed screw driver

- ① Offer the side panels of the planter to the lattices, insert 6 long screws into the predrilled holes and secure.
- ② Position the base into the bottom of the planter

Care and maintenance

To prolong the life of your planter

- Preserve the wood using a proprietary timber treatment, following directions on the can after first checking that it is not harmful to plants.
